Professional Experience

Technology Consultant

Protiviti, Houston, TX (July 2023 - Present)

Cyber Risk Management & GRC

- Aligned client policies and controls with NIST CSF/SCF frameworks, ensuring compliance and identifying security gaps through risk assessments and control evaluations.
- Utilized Tugboat to streamline policies, update controls and enhance client systems, resulting in improved efficiency and reduced risk.
- Conducted comprehensive risk assessments, formulated recommendations and documented risk rationales to support informed decision-making.
- Identified and addressed gaps in policies and controls for a financial firm using NIST CSF, ensuring regulatory compliance.

Business Impact & Continuity Risk Assessment

- Reviewed continuity documentation to assess organizational preparedness and identified areas for improvement.
- Conducted stakeholder interviews to gather insights for improvement opportunities, enhancing business continuity planning.

Process & Control Development for SOC Compliance

- Developed IT process flows and control documentation for SOC2 Type 1 certification, ensuring compliance.
- Guided team members and facilitated client communication to ensure effective implementation.

Cybersecurity Consultant (Intern)

Guidehouse, McLean, VA (May 2022 - August 2022)

Cybersecurity Assessment & Improvement

- Evaluated healthcare clients' security posture against NIST and industry standards, identifying vulnerabilities.
- Conducted technical testing, documented gaps and recommended security improvements.
- Collaborated on securing client AWS cloud environments, ensuring compliance and resilience.

Web Developer (Intern)

Fox Sports, Cincinnati, OH (May 2021 - April 2022)

Web Development & Enhancement

- Improved (link unavailable) SEO and UX/UI through bug fixes, feature additions and performance optimization.
- Implemented breadcrumbs for event pages, enhancing user navigation and SEO.
- Increased organic traffic by 130% YoY through improved SEO functionality and UX/UI enhancements.
